

# Replay TX Registration

Replay TX Server has to be registered.

Proceed with registration only if your software is up and running.

It is very important to register your software promptly. Otherwise it will stop functioning within 30 days from the date of installation.

The Trisys, Inc. Software registration process consists of two steps:

## Step I TO OBTAIN REGISTRATION NUMBER

### At the Replay TX Server PC:

1. Open **Start\Programs\ReplayTX\Registration**.  
Select the **1st - Get Registration Number** option.
2. Trisys Registration web page appears. Click on registration link for Replay TX.
3. The web page with registration instructions appears. Follow the on-screen instructions to obtain the registration number.
4. Once you obtain the registration number copy it for your reference. You will need it in Step II.

## Step II TO COMPLETE REGISTRATION

### At the Replay TX Server PC:

1. Go to **Start\Programs\ReplayTX\Registration**.  
Select the **2nd - Register Replay** option.
2. Click on the **Register Replay** button.
3. Confirm you serial number.
4. Click **YES** to the message "Do you have a registration number?".
5. Enter your registration number and click on **OK**.
