

# Activating Replay Demo or Upgrading Replay ST for TAPIT NOVA

---

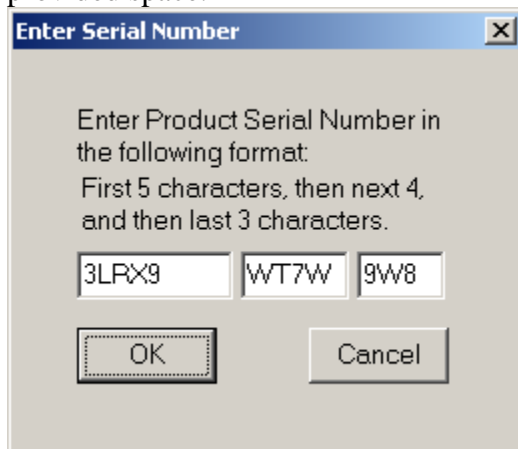

This document applies to the PC where Replay ST Registration resides.

In order to increase number of licenses for Replay ST, or activate Replay DEMO, you need to register Replay with the newly purchased serial number.

1. Go to **Start/Programs/Replay Registration**.
2. Select the **Registration** option.

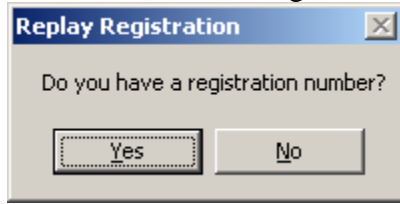

3. Click on the **Register Replay** button.
4. The message "The Serial Number ... is found on this computer...If you wish to change this Serial Number press on NO".  
Click on **NO**.
5. The message "If you have a Serial Number..." comes up. Click on **YES**.
6. The **Enter Serial Number** screen appears. Enter the new serial number in the provided space.

7. If the message "The Serial Number ... is registered properly..." appears click on **NO** to overwrite old registration. Otherwise, proceed with point 9.

8. The message asking if you have a registration number comes up. Even though you have not obtained a registration number yet – click on **YES**.

9. The **Enter Registration Number** screen appears.  
It displays your software Serial Number and the Computer ID.  
At this point you have to obtain a registration number to continue. You'll be asked for both the Serial Number and the Computer ID during this process.  
**To obtain Trisys registration number over the Internet:**  
(a) Go to [www.trisys.com](http://www.trisys.com).  
(b) Click on **Register**.  
(c) Click on **Replay**.  
(d) Follow registration instructions. You will need your serial number and your Computer ID.

The registration number will be emailed to you upon completing the on-line process.

10. Once you've obtained a registration number via email, enter it in the provided space on the **Enter Registration Number** screen and click on **OK**.

Registration is completed.
