

TAPIT EZBOX CONFIGURATION FORM

IMPORTANT DISCLAIMER:

The [Tapit ezBox](#) Standard Edition requires [HDMI Port interface](#) to connect to the computer monitor. Make sure your technician(s) have the appropriate monitor cable prior to configuration.

Instructions:

1. Enter all required information in the form below and verify that each item is answered as it is critical for configuration and that will delay a scheduled installation.
2. Provide the contact information in the appropriate sections and email the completed form to your Trisys sales representative.
