

ARE YOUR PHONE CALLS HIPAA COMPLIANT? CAN YOU AFFORD EXPENSIVE LEGAL FEES? IS YOUR MEDICAL PRACTICE AT RISK? **WE CAN HELP!**

Our **Replay Call Recording** program takes the guesswork out of HIPAA security rules and privacy requirements. Our easy-to-use and complete turnkey solution will make sure you are protected!

*Trisys solutions enable healthcare organizations to effectively monitor their practices policies, procedures, and privacy rules as required under HIPAA. Mitigate risk to the company's revenue, reputation, and achieve much more with **Replay Call Recording!***

"Get a pulse on all of your key communication areas between employees, patients, insurance providers and third-party groups!"

Liability Protection

Get Peace of Mind with secure data encryption of recorded calls ensuring the guard of private and personal health information and all things HIPAA.

Revenue Generation

Increase revenue using Replay Call Recording to authoritatively deal with payments from patients and insurers. Reduce expenses by identifying potential fraud, cost allocation and budget forecasting.

Patient Satisfaction

Improve customer service through enhanced quality of service. With a call record paper trail, accurately track callbacks, conversations, and resolve disputes quickly and efficiently.

Trisys Inc. has been your valued supplier for many years. Our solutions allow your business to become HIPAA compliant, increase the customer experience, and protect your practice against liability related to HIPAA rules.
