

-
- ❖ Before installation, please disable all Anti-Virus and other security (i.e. Firewalls, End-Point protection, etc.) software you may have running on your PC.
 - ❖ This installation will require one or more system reboots.
 - ❖ Tapit NOVA cannot be installed on Domain Controllers and we do not recommend installing it on any other servers already running resource-intensive applications.
-

Before calling for assistance with Tapit NOVA installation, please be sure you are in compliance with **ALL** of the following:

(A) - Minimum Requirements for Tapit NOVA computer:

- Intel Core 2 DUO processor or AMD equivalent
- 4 GB of RAM
