
Part I: Running the Upgrade

NOTE:

- Tapit NOVA may only be upgraded to Tapit 6 if you have purchased a Tapit 6 compatible serial number
 - Please be sure to disable any Anti-Virus or other security Software before running the Upgrade.
1. Create a folder called C:\Trisys_Software on the Tapit NOVA PC if one does not already exist.
 2. Download the Tapit6Updater.exe from the link provided. Save this file in the C:\Trisys_Software folder. [Click here](#) to download Tapit 6 Upgrader.
 3. Right Click on the downloaded file and select Properties. If you see a check box or button labeled Unblock check this box or click the button. Click Apply and OK (it may not be there. If so, skip this step).
 4. Right Click on the downloaded file and select Run as Administrator even if you are logged in as an Administrator.
 5. Allow the Updater to run. This will take a few minutes.
 6. When complete you will now have a Tapit 6 short cut and programs groups on the Desktop and in the Start Menu.

Part II: Changing your Serial Number

Before using Tapit 6 you must have a Tapit 6 compatible serial number. If Tapit NOVA had already been running under one you can skip this step. Otherwise you must change your serial number before using Tapit 6.

1. In the Start Menu go to Programs (apps)->Tapit 6 and right click on Change serial number. Select Run as Administrator.
2. The program should display your old Tapit NOVA serial number. Click No to change the serial number to the new Tapit 6 one provided.
3. Click yes to Enter the serial number, type your serial number (case sensitive) and click OK.
4. It will ask if you have a Registration Number, click No (you can register it online later). Click OK and the exit the Change serial number application.
5. You can now open and use Tapit 6. All of your data and settings should have been ported over.
